Joyful, joyful, we adore thee, God of glory, Lord of love;
Hearts unfold like flowers before thee, opening to the sun above.
Melt the clouds of sin and sadness; drive the dark of doubt away.
Giver of immortal gladness, fill us with the light of day!

Mortals join the mighty chorus which the morning stars began;
Love divine is reigning o'er us, binding all within its span.
Ever singing, march we onward, victors in the midst of strife;
Joyful music leads us sunward, in the triumph song of life.

Academic Dress

Much interest is always occasioned by an academic procession because of the colorful dress worn for ceremonies by the faculty and the graduates. In general, the gown indicates the level of the highest degree held: for bachelors, the black gown with flowing, pointed sleeves; for masters, the black gown with sleeves slit midway for the arms, and the sleeve bottom closed flat with a semicircle cut in the side; for doctors, the flowing closed robe with sleeves closed at the wrist, decorated with chevrons of velvet, most often black on black, but occasionally with chevrons of another color indicating the general field of study, for example blue for philosophy, red for theology, or purple for law; or the entire robe of another color, as the light blue of Columbia, the crimson of Harvard, or the gold of Johns Hopkins.

Caps are nearly uniform; gold tassels indicating the doctorate or doctoral equivalents, black tassels for the lower degrees.

Most identification is contained in the hoods. The velvet edging is two inches wide for masters and three for doctors. Its color indicates the subject matter in which the wearer's degree was earned: white for arts, letters, or humanities; drab for business; light blue for education; brown for fine arts; lemon for library science; pink for music; dark blue for philosophy; sage green for physical education; golden yellow for science; or scarlet for theology and divinity. The lining of the hood is a precise code identifying the university of the degree's origin. The variations from these descriptions are mostly from foreign universities.
